# History

The RIVERBROS project was born in 2014 thanks to the great friendship between three dj-artists from Bassano del Grappa (Italy): Alessandro Doro, Marco Meneghello and Alex Citton. The three of them started approaching to music since their youth: Ale, fond of rock, also plays the drums and invented the big Italian After Tea “Beat Bit” (guest played: Ralf, Silvie Loto, Pasta Boys);

Marco, fan of the disco music and in love with music since he was a child, organized dj set by Albert Marzinotto, Giuliano Veronese and many more; Alex, a hip hop and electro music fanatic, as a teenager enjoys with analog synthesizers and scratch with the big producer DJ Activator aka Manuel Tessarollo (For the following 5 years performed as a special guest on some major events and clubs in the north east of Italy like: Fabula, Strauss Tour, Sonar, Under Construction, Energy Club, Ecu and Fuse..)

In the summer of 2014 the three guys try to merge their friendship, their passion for music and all the dj sets done till then, creating a high-quality project, which would be fun and that would manage to combine the different passions of all its members.

Shortly the project becomes stronger, allowing the Riverbros to perform at the most important events and festivals of the Veneto musical landscape.

Just to mention some...: FREAK!, SPRING BREAK, HOLI Festival, ASBRONZATISSIMI are just some of the events that have hosted the three artists.

Their performances are characterized by hits which make people go wild and by total fun behind the console.

They are now preparing for the summer, when they will release their first single at the beginning of July 2016.

Usual Dj set: HIPHOP/COMMERCIAL/EDM & ROCK.

And here's their philosophy:

“If you don't have the physique, JUST STAY AT HOME!”

# City tour

Umago (Croazia)

Padova / Milano / Torino / Treviso / Roma (Italia)

# Big Events

Spring Break

Holi Festival

Sherwood Festival

Ferrock

A.M.A. Music Festival

Eutropia Festival

New Year's Eve in Rome
